

*Consulado General y  
Centro de Promoción  
de la República Argentina  
en Nueva York*

New York, October 29th, 2010

To whom it may concern:

In my capacity of Consul General of Argentina in New York I would like to express the support of the Government of Argentina for the 911 FUND in their application to USAID for additional funding to expand the donations of training, equipment and apparatus that they have been making to Argentina for many years.

The result of these donations from de 911 FUND over the past decade has been to dramatically improve the safety and security of tens of thousands of Argentine citizens in the cities and towns in which they live. The result of the training provided to our firefighters and paramedical personnel, along with the specializes equipment and many fire trucks they have donated, has prevented many disasters, and enabled our firefighters to respond more rapidly to emergencies that do occur.

Argentina is a very large country, and we hope that with support from USAID, the 911 FUND will be able to expand their efforts into many provinces and communities that have not yet benefitted from this support. The Government of Argentina pledges its continuing support to the 911 FUND in their efforts on behalf of our people.

Sincerely yours,

Ricardo Larriera  
Cónsul General a.c.

United States Agency for International Development  
Ronald Reagan Building  
1300 Pennsylvania Avenue, NW
